

NO KINGS

RULEBOOK

The realm of Cardlandia is fracturing. Topple the old regime — first to 50 points founds the new order.

THE CAST & THE DECK

A 52-card deck with the court renamed, plus 4 wild Jokers.

Kings (K)	Absolute Monarchs — the instant you draw one you must play it face-up.
------------------	---

Queens (Q)	Cunning Plotters, scheming from your hand.
-------------------	--

Generals (10)	The Military Brass — command, coup, or chaos.
----------------------	---

Bishops (A)	The Holy Order, sanction against the Crown.
--------------------	---

Crowd (2–9)	Common Folk — weak alone, devastating united.
--------------------	---

Jacks (J)	Ambitious Heirs — can never be discarded.
------------------	--

Players — 4 (Hearts, Diamonds, Clubs, Spades).
For **5–6**, add a full guild suit each: **Anvils** (5th),
Wheat (6th).

THE REVOLUTIONARY CYCLE

1. The **oldest player** goes first; play proceeds **clockwise**.
2. **Draft support** — draw one card. Draw a **King** and you crown yourself at once, face-up. Otherwise keep it.
3. **Maintain order** — hand limit 7. Discard the excess out of play, but **Jacks refuse to be discarded**.
4. **Strike or plot** — play a combo to topple standing Kings, or hold your cards for a bigger coup.

*A toppled King becomes a **Fallen King** in your victory pile; the cards used are discarded.*

THREE PATHS · 1 OF 2

Every takedown is one of three easy ideas.

Palace Coup

faces & 10s

Any pair of high cards (two of Queen / Jack / General) → topple **1** King.

Royal bloodline

A **same-suit** Queen + General → topple **ALL** of one player's Kings.

Holy Decree

Bishops / Aces

1 Bishop of the King's own suit — or — **2 Bishops** of any suit → topple **1** King.

THREE PATHS · 2 OF 2

**The Mob —
Riot**
numbers 2–9

Three of a kind (three 2–9 of one rank) → topple 1 King.

**The Mob —
Revolt**

A **same-suit run** of 2–9: 4→1, 5→2, 6+→3 Kings.

Revolt is a run of **consecutive same-suit number cards 2–9** — no faces inside — all aimed at **one player's** Kings. A Bishop may lead the march for flavor, but adds no count.

THE SECOND WAVE

Jack's ambition — after every true King has fallen.

- The ambitious **Jacks instantly rise as Promoted Kings** — everyone reveals their Jacks at once.
- A single **General** can crush a Promoted King (discarded).
- **Joker + General** is a swift assassination: remove a Promoted King and claim the Jack as a **Promoted Fallen King**.
- Bishops, Palace-Coup pairs, and Revolts topple Promoted Kings by their normal rules.

THE GRAND RECKONING

Scoring — single digits, no negative math.

Fallen King (victory pile)	+2
----------------------------	----

Promoted Fallen King	+1
----------------------	----

Surviving Queen in hand	+1
-------------------------	----

4 Kings standing (or a coup)	+10
------------------------------	-----

Each King left on the table	-1 all
-----------------------------	--------

Caught holding a King	round = 0
-----------------------	-----------

Generals' coup: hold all 4 Generals when the 4th King is played to claim the +10. **Round ends** at 4 standing Kings or when the deck runs out.

First to 50 wins.

QUICK REFERENCE

Palace Coup — any 2 high cards (Q/J/10) = topple 1. Same-suit Q+10 wipes all.

Holy Decree — 1 matching Bishop or 2 Bishops = topple 1.

The Mob — 3-of-a-kind, or same-suit run of 4+ = topple 1 / 2 / 3.

Scoring — Kings 2, Promoted/Queen 1, four Kings 10. Hold a King → round 0. First to 50.

NO KINGS
